

What is Scalar energy?

Scalar energy is also referred to as scalar electromagnetism, zero-point energy, and energy of absolute nothingness which existed before the world began. These new waves of energy are called "longitudinal" EM (electromagnetism) to distinguish them from "transverse" EM which are the kind we are familiar within our daily life. Examples would be, the kind that power our cell phones, tablets, television, radio broadcasts, microwave ovens, and so on. Rather than modulating in 3-dimensions they are modulating in the direction they are going, accordion-like, that is, along the axis of time, the 4th dimension. This new discovery in the new field of "scalar electromagnetism" is the discovery that time itself is compressed energy, compressed by the factor of the speed-of-light-squared. As shown by Einstein's $E = mc^2$, matter itself is also compressed energy, and compressed by the same factor as scalar energy is compressed in time.

What are the properties of Scalar Energy?

The properties of Scalar Energy include them being non-linear and non-Hertzian. This energy form has the capacity to carry information. It also does not decay with the passing of time or distance. Scalar Energy cannot be measured by contemporary frequency instruments as it is depicted to be without frequency. This energy form is static, a stationary form of energy. When two similar frequencies coming from opposite directions meet, they cancel each other out. This results in a stationary energy form.

The traditional understanding of energy is that it flows out in the form of waves. However, Scalar Energy does not radiate as waves but expands outward in circles of energy. Occupying space, this spatial mass is not a vacuum but comprises a field of energy systems that is alive. This vibrant and dynamic energy field radiates a network of harmoniously balanced energies. Scalar energy can be created naturally. It has always existed in the universe. By applying the conditions required, Scalar Energy can also be created artificially.

How Scalar Energy works in our body

It is a commonly accepted fact that the brain works with the nervous system to control the various functions of the body's organs and systems. The nervous system is extremely sensitive to electromagnetic frequencies (EMF) from the environment. Most electrical equipment (television, computers, cell phone and microwave) radiate 60 HZ frequencies and is able to interfere with the proper function of the nervous system. High voltage cables also emit EMF that has a negative effect on the human body. There is growing evidence in the medical field that links diseases like cancer and Alzheimer's with these man-made EMF. Medical investigations and studies are also pointing out that symptoms such as headaches, lack of concentration, depression, hyperactivity in children, sleep disturbances and others could be the result of EMF.

Scalar Energy's expansive and circular movement offers a field of protective shield around the body. This protective shield removes and cancels the effects of man-made frequencies (60 HZ) on the human body.

This is achieved by enhancing the body's natural defenses against the damaging radiation coming from the various household and industrial appliances that surround us. The brain has its own vibrations. The human brain uses these vibrations to communicate within itself and with the rest of the body. There are 4 classifications of brainwaves – Beta, Alpha, Theta and Delta. Scalar Energy is able to promote Alpha wave frequency in the brain. The brain then resonates at the same vibration as the earth's energy field and is able to amplify these vibrations. If this frequency is transmitted throughout the body, this could assist the cells in the body achieve a particular resonance which is essential to optimum health. Scalar energy also promotes a mind that is relaxed, more coherent, focused and sharp with improved clarity.

What are Benefits from Scalar Energy?

There are many benefits from the energy carried into cells by scalar enhanced supplements. The surface tension of enhanced products is reduced, making them easier for the body to assimilate. And remember, scalar energy is readily transferred from embedded products to your cells. The electrical charge generated across cell membranes is brought up to optimal levels. This allows nutrients to move into the cells and wastes move out with maximum efficiency. Overall body energy increases as each of the trillions of cells are energized. Scalar energy strengthens chemical bonds within DNA, making it more resistant to damage. Blood is cleansed and its cellular elements function as they should. Immune function improves. There is improved mental focus, with increased amplitude of all EEG frequencies, but particularly the lower ones. The 2 halves of the brain become more balanced, again shown by EEG's. It creates an antidepressant effect by direct action on neurotransmitter movement.

Scalar energy has some other amazing properties. It can actually be stronger weeks or months after being embedded into high quality products. It repairs itself after disruptive exposure to X-rays. It passes itself on to products or items placed nearby. It can cancel out the harmful effects of 60 cycle currents as we have in homes and buildings, electromagnetic fields, radiation, and microwaves.

All Life is Energy

All life is energy. Every nerve impulse in your body is an electric current. Our muscles are powered by chemical energy. Every cell in your body is a mini-battery pumping out 70-90 millivolts—when healthy. Optimize that Energy and You Optimize Your Health. Energy is neither good nor bad; It's just a question of what frequency and amplitude you use and how you use it. And the same is true of all forms of energy. You may charge your body with the right Frequencies to Prevent Disease. The energy use is merely of what frequency and amplitude.

The Nature of Energy

All of the energy that we normally think of is characterized by both particle and wavelike properties. The waveform of all these energies can be graphed as a Hertzian wave (either in the form of a sine wave or a step wave). We're talking about everything from electricity to magnetism, from light to sound. The only difference between all of these forms of energy is how fast the waves rise and fall (the frequency) and how intense those rises and falls are (their amplitude).

What Are Scalar Waves?

The standard definition of scalar waves is that they are created by a pair of identical (or replicant) waves (usually called the wave and its *antiwave*) that are in phase spatially, but out of phase temporally. That is to say, the *two waves are physically identical*, but out of phase in terms of time. The net result is that

scalar waves are a whole different animal from normal Hertzian waves. They even look different—**like an infinitely projected mobius pattern on axis**. In the "New Age" community there has been much talk of the benefit of things like Tachyons, Radionics, and Pyramids, etc. Analysis shows that these are all, at heart, most likely scalar generating (or harvesting) devices.

Healing Energy

Now that we have some background, we're ready to move on, but first, a quick review of that we now know.

- It's all about energy. We are fundamentally **energy beings**.
- The application of energy (its beneficial or harmful effects) is primarily determined by the **frequency** of that energy and its **intensity**.
- There are essentially two different kinds of energy we're working with: standard electromagnetic energy (light, heat, sound, etc. -- that is most everything we're familiar with) and **scalar energy** as described above.

From here, it's an easy extrapolation to see that there are really only five different ways that you can apply healing energy to the body.

- Wearing or using a device or scalar energy wrist band that **functions as an antenna** and **draws selected healing frequencies** out of the "ether."
- Direct application of energy to the human body.
- **Embedding energy** in a supplement, wrist band, or patch, etc.
- Using specially designed materials to selectively concentrate and reflect back healing frequencies generated by the body itself.
- The laying on of hands

Embedding

It's quite easy to "**embed**" a set healing frequency in a product or object. If you use scalar energy, the frequency will tend to stay in the object **indefinitely** (unless overridden by a stronger frequency). This can be done with **objects you wear such as a Scalar energy wrist band**.
